I see a bright future on the horizon for agricultural on and around the Central Highlands. As the agricultural market grows so too does the need for larger and modern facilities to process and handle the output of these commodities.

The CQ Inland Port is a project that will create jobs and growth within the Region both in the short and long term. It is an excellent concept which sees greater utilisation of the rail and road investments.

I look forward to seeing this project grow and emerge as a leading multi-functional intermodal hub bringing into one location a variety of bulk logistic services and industries.

Yours sincerely
